AIMECHATEC, Ltd.

Order received for 10.5 generation TFT-LCD production line equipment

AIMECHATEC has received an order for 10.5 generation TFT-LCD production line equipment from a major overseas FPD customer. This large order was the result of long term reliance and a cooperation between our company and the customer.

Also, in our TFT-LCD production line equipment lineup, we provide high precision seal coating equipment, high precision LC coating equipment, high precision vacuum assembly equipment, and peripheral equipment which are extremely popular with our customers.

AIMECHATEC will continue to contribute even more to the development of leading edge production equipment and the FPD production industry while looking forward to your continuing support.
