AIMECHATEC, Ltd.

Order received for 8.6 Generation LC Panel Production Line Equipment

AIMECHATEC has received a consolidated order from a major LC panel maker in Shaanxi, China for seal coating equipment, LC coating equipment, and vacuum assembly equipment to be used in the cell process of an 8.6 generation LC panel production line. This order was realized through long term reliance between our company and the customer.

AIMECHATEC will continue to contribute to the growth of the LC panel industry by providing leading edge equipment to meet customer needs.
