

July 1, 2018

Dear Customers:

**(Re-announcement)
AIMECHATEC, Ltd.**

Spare Parts Suspended Manufacturing – Laser Parts for Seal Dispenser

We would like to announce that manufacturing of some Laser Parts for Seal Dispenser is to be suspended by manufacturers. Your kind attention and understanding to this matter is highly appreciated.

1. Equipment Model: HSD****_**
2. Applicable Parts: Displacement Meter (Optical Micro) made by Anritsu Corp.
Sensor for Gap Measurement: KLD1340A/KLD2340A
Sensor for Cross Section Measurement: KL1321C/KL1321D/KL2321A
3. Reason: Due to manufacturing stop of several electrical parts
4. Time: March 31, 2020
5. Forthcoming Maintenance
 - 1) New Parts: Possible to receive order for new parts manufacturing by March 31, 2020.
 - 2) Parts Repair: Possible to repair parts for which order is received by March 31, 2027.
(There might be cases not possible to be repaired depending on failure contents.)
 - 3) Export Control: One of the applicable Parts Model No. "KLD1340A" is restricted to export under the laws and regulations in Japan, and Export License is required to supply new parts and repair. In case Export License is required, Customer's cooperation is appreciated for documents, information, written oath, etc.

In case of Parts Repair, it is required to export and import parts for repairing and returning under the control of identities with Model and Manufacturing Nos. based on original Export License.

Parts Supply is to be proceeded after obtaining Export License. In case Export License cannot be obtained, Parts Supply is not possible and Customers' prior understanding is highly appreciated.
- 4) Alternative: Alternative Proposal will be informed later.
