

2022.10.27 News Release

Received Orders for “One Drop Fill (ODF) System for IT Panel Production” from Flat Panel Display Manufacturers in Taiwan

We, AIMECHATEC, Ltd. (Head Office: Koyodai, Ryugasaki-shi, Ibaraki-pref. President: Isao Abe) are pleased to announce that we received orders for Seal Dispenser, Inkjet Liquid Crystal Dropping System, and Vacuum Assembling System (VAS) from Major Flat Panel Display Manufacturers in Taiwan.

Display Technologies had been developed by responding to the demands for Higher Definition represented by 4K8K. However, new demands for Display for diversifying applications with focus on Information Technology (IT, such as Gaming, Internet Distribution, and various Web Correspondences, etc.) have been expanding in the course of development of 5G infrastructure environment.

Display Manufacturers are now urgently required to build Production Systems to meet these new demands and are in the process of expanding latest manufacturing systems and upgrading the existing equipment to be applicable for High Value-Added Production.

We have been proposing “One Stop ODF (One Drop Fill) System” most suitable for the development of these diversifying Display Technologies. As a result, we received high evaluation and purchase orders.

We will continue to contribute to the society by improving convenient and affluent lifestyle through our technological innovations for manufacturing processes, in pursuit of our slogan “Today One Step, Tomorrow One Step.”

Your continued kind support to our company is sincerely appreciated.
